Professional Expertise

With more than 16 years of Research (Social Science), Teaching, and Training experience, I have been involved in measuring accountability and governance in public service delivery by adopting different Accountability & Transparency tools and techniques. As part of my job I have been involved in all aspects of various research projects in the fields of Agriculture Economics, Health Economics, Public Finance, Rural economy including decentralisation, governance, public policy, education and industry. Have strong research experience in formulating project proposals, planning, directing, and organizing, conducting and co- coordinating research project and designing and implementing appropriate methodologies for field surveys, primary and secondary data processing, analysis and report writing of projects. With More than 40 publications (Papers & Books) and with an international exposure on Social accountability tools expert (Visited and conducted research & training in some of the developing countries)

Have profound experience for two decades plus in teaching, research & consultancy. His research covers a vast canvas of areas related to economics, rural development, Sustainable Development Goals, human development, decentralised planning, Social Accountability Tools (SATs), service delivery assessments, community engagement processes and development disparities, gender, social groups, public policy, policy analyses, Monitoring & Evaluation & Action Research.

Academic Profile

- ✚ Ph.D. in Economics, thesis topic "**Technological changes in production of commercial crops in Andhra Pradesh - an inter-regional analysis**" from Sri Krishnadeveraya University, Anantapur, Andhra Pradesh in the year 2004
- ✚ Master of Arts in **Applied Economics** from Sri Krishnadeveraya University Anantapur. Specialized papers are Mathematics for Economics and Statistics for Economics, 1998.
- ✚ Bachelor of Arts in Statistics, **Economics and Accountancy** from Sri Venkateswara University Tirupathi, 1996

Work Experience

- ❖ Presently working as **Assistant Professor**, at National Institute of Rural Development & Panchayati Raj (NIRDPR), GoI, Hyderabad from 6th August 2014 to till date
- ❖ Worked as **Programme Officer** at Public Affairs Centre (PAC), Bangalore from
- ❖ December 2006 to 4th august 2014 (About 8 years).
- ❖ Worked as **Lecturer in Economics (Quantitative Techniques)** for Graduate students at C.V.L.N.R Degree College, Anantapur from August 1998 to November 2001.
- ❖ Worked as a **Research Consultant** for Sussex University UK (3 months) **Collecting and analysing secondary data on Political aspects of Indian Federalism in 2003.**

As an Assistant Professor at NIRDPR my major job responsibilities are conducting capacity building trainings to National and State level various governments officials, research scholars, students and NGO on various MoRD programmes and also trainings to the international participants topics related to Good Governance and Social Accountability tools and Techniques. Another important mandatory of NIRDPR is to conducting research and action research on various MoRD programmes and signifying some policy suggestions on different flagship programmes.

In NIRDPR history, i am the first person introduced Certificate programme on Social Accountability Tools for Good Governance, E-governance strategies for Good Governance, and Masters training programme on Functional Marker analysis and Selective Expenditure Tracing system course for improvement of service delivery.

Soon after my Ph.D., I joined a think-tank in Bangalore that works on governance related issues. I worked at Public Affairs Centre (PAC) from 1-4-2007 to 4-8-2014 (7 years

4 months). At Public affairs Centre (PAC) Bangalore, I was part of Participatory Governance Research group (PGRG) and the approach of PGRG would thus be to enhance the scope of research that can be carried out under the themes of governance and service delivery.

My experience at Public Affairs Centre Bangalore, allowed me to understand the broad linkages between policy making, economy, service delivery and participatory governance. This broadened my understanding vis-à-vis better service delivery aspect allowing me to look at service delivery through the lens of participatory governance and policy making. Existing policy gaps coupled with bad implementation at the grassroots are major impediments to the better service delivery changes in any sector. On the whole at PAC innovated new Social Accountability tool - CRC plus - were successfully used for testing underutilisation of Investigation fund in Karnataka Police department and Madilu yojana programme of Karnataka. Developed a manual to adopt different social accountability tools especially using CRC, CSC and Budget analysis for better service delivery of any sector and this manual is designed for Research institutes, NGOs and Community groups. Trained participants at national and international on different Social Accountability Tools.

Selective Research projects associated:

1. **Improving Consumer Voices and Accountability in the Nirmal Bharat Abhiyan (NBA), funded by Bill and Melinda Gates Foundation (BMGF).** The project aims to improve the governance of NBA and include citizen voices in its implementation and monitoring. It is necessary therefore to address both demand and supply side issues. On the demand side, the project visualizes enhancement of the voice and participation of citizens in the NBA. On the supply side, it aims to increase the capacity of all stakeholders to efficiently utilize the resources available to them.
2. **Improving Access to Information and Delivery of Public Schemes in Remote and Backward Districts of North-East India; Funded by ACTED, EU.** The project aims to improve access to quality information on and delivery of public schemes and enhance accountability of public service delivery actors in North East India (NEI).
3. **Community Participation Assessment funded by IDRC, TTI Grant.** There has been an increasing realization that the community needs to own up responsibility to the development programmes that have been implemented by the government or other funding agencies, long after the scheduled time period of the programme gets over. This bottom-up approach of involving community participation is needed for the sustainability of the programmes, which have been given emphasis to by the government and as well as funding agencies.
4. **How do MPs utilise MPLADS in Karnataka - funded by PAC under IDRC think tank imitative project,** the main objective of the study is to evaluate the utilisation

of MPLADS funds in Karnataka; (2004-09 & 2009-11) , To analyse spending patterns by region, party, experience, education, and sector-wise and To rank MPs based on their utilisation of MPLADS. This study is an exploratory approach to Comprehend how the MPLADS operates, stems from Public Affairs Centre's strong emphasis and commitment to improve governance, increase accountability and transparency, and ensure proper use of public funds (<http://openbudgetsblog.org/category/budget-allocation/>).

Selective core publications:
