

Curriculum Vitae

Name: Khaleda Islam

Mailing Address: Urban Park, Apartment: 4C, House: 27, Road: 8, Dhanmondi, Dhaka-1205

Office: Institute of Nutrition and Food Sciences
University of Dhaka
Dhaka 1000

Telephone: 9661920- 59 Ext: 8424 (Office)
01715312079 (mobile)

E-mail: arunadu15@gmail.com

Educational background:

- i. Ph.D in Human Nutrition
- ii. Post graduate diploma (DPH) in Public Health Nutrition with an emphasis on Child and Mother Nutrition, Research Methodology, Epidemiology and Gender from Wageningen University, The Netherlands.
- iii. MBBS, Dhaka Medical College,

Occupational Affiliation:

Professor – Since 2004.

NUMBER OF STUDENTS SUPERVISED

1. Approx 150 MSC
2. Mphil -20
3. PhD -15

TOTAL RESEARCH PUBLICATIONS

MORE Than 100

GUEST FACULTY

1. Institute of Social Welfare - Dhaka University
2. Department of Population Science - Dhaka University
3. Department of Psychology - Dhaka University
4. Daffodil International University – Subhanbug, Dhaka
5. Bangladesh University of Professionals (BUP) - Dhaka
6. Northern University (Public Health Nutrition) – Dhaka
7. North South University (Public Health Nutrition) – Dhaka
8. University of Liberal Arts (Clinical Nutrition and Public Health Nutrition) - Dhaka

RESEARCH AND CONSULTANCY

Research and Consultancy

- **Nutrition expert**

July 2023, Funded by unicef , European Union

Knowledge, Attitude , and Practice (KAP) Survey on Behaviour Aspects of the Beneficiaries of the Mother and Child Benefit Programme (MCBP) a social protection program of the Ministry of Women and Children Affairs.

- **Principa Investigator**

June 2022

Funded by Ministry of Science and Technology (MOST)

Food Security Status and Associated Genetic Variants in PPARG (RS1801282) and Near MC4R (RS17782313) Gene with Obese and other Health Behavior among Selected Indigenous Women of Retroactive Age In Plain Land of Bangladesh.

- **Principal Investigator**

April 2021

Funded by University Grants Commission

Health-seeking Behavior, Dietary Diversity and Nutritional Status of the Indigenous Adolescent Girls in Garo Community .

- **Principal Investigator**

May 2020

Funded by Dhaka University

Vitamin B₁₂ Mediated Therapeutic Intervention In Patients With Cyanocobalamin

(Vitamin B₁₂) Deficient Peripheral Neuropathy

- **Nutrition Expert:**

July 2016-June 2019, Jointly with Dhaka University, University of Manitoba, Canada and others, Funded by IDRC-Canada

Reducing NCD (Non-Communicable Diseases) by Changing Food pattern And life style among Bangladeshi Population

- **Principal Investigator**

December 2018

Funded by Asiatic society (trustee body fund)

Health Care Seeking Behaviors of Elderly People in Bangladesh 2019 ,
ASIATIC SOCIETY

- **Principal Investigator**

June 2018

Funded by University Grants Commission

Constraints to exclusive breastfeeding practice among breastfeeding mothers working in the selected garment industries in Dhaka City 2018

- **Nutrition Expert:**

September 2017-(ongoing), Funded by PKSF

Mid-term evaluation of the intervention program of Poor And Ultra poor in four divisions in Bangladesh.

- **Principal Investigator**

July 2020 to 2021 –Reproductive health behavior and health seeking practice of Garo Adolescents girls .

- **Co-author**

November 2011-January 2012

A research based paper on land grabbing and eviction of the Garo, Orao and Saotal in Bangladesh. The paper is presented at a national seminar on 10 January, 2012, in the Senate Building, University of Dhaka

- **.Co-researcher**

Dec 2010 – April 2011

Assessing the condition of rag pickers in Dhaka city. It assesses socio-economic, health and nutrition condition of the Dhaka city rag pickers who live in slums. It includes questionnaire survey and case study. Provided training, questionnaire formulation, checklist formulation, data processing and taking part in report writing.

- **Research Coordinator**

Nov 2010-March 2011

Trade Union in Bangladesh and the expectations of the society is the research project, sponsored by BILS, in this study the role was of research coordinator, helped in training, questionnaire formulation, checklist formulation, qualitative data collection and took part in report writing as a team member.

- Co-investigator

July 2010-October 2010

A study on Madhupur Law Suits in which the implications of cases filed by Bangladesh Forest Office against the indigenous people living in Mahdupur forest areas under Tangail district are being examined. Genuineness of the cases will be examined, effect on the livelihood situations and other vulnerabilities will be reviewed by sample survey, case study, FGD and personal interview. OXFAM funded, executed through RDC.

- Co-investigator

August 2009 – October 2009

Mid term evaluation of the Chinnamukul Prokolpa of SUF, above program is directed to the child labour in Magbazar area in three Dhaka Municipal Wards, evaluation will include both quantitative and qualitative exercise.

- Health, Nutrition & Gender Specialist

December 2008 – July 2008

Impact of micro-credit on health and nutrition in five districts (Narshingdi, Rajshahi, Jessore, Sylhet, Sunamganj) in Bangladesh is currently being evaluated. It is an Institute of Microfinance (INM) supported study. More than 1000 households have been surveyed. Case studies are also included. Nutrition aspect included food intake particularly the assessment of micro and macro nutrients. Health includes morbidity, mortality and reproductive health. Different measurements such as BMI, Z scores, and others were used in the analysis.

- Co-investigator

August 2009 – September 2009

Preparing a campaign document for ILO to motivate the GOB and other stakeholders to adopt the ILO convention 138, on minimum age for employment. Reviewing related documents for this purpose.

- Co-investigator

August 2008 – October 2008

Review of the BRAC's for evaluation of the relief and rehabilitation program carried out following flood and SIDR in several districts of the country for evaluation. As a part of the study fieldwork was done in Sirajganj, Gaibandha, Barguna and Bagerhat districts. Extensive FGD was conducted with the beneficiaries, loan body members and civil society members in

these different districts along with case studies. BRAC management at different levels were also interviewed.

- . Resource person on health and nutrition

Different months of 2008

Providing training to the advanced students at BIRDEM on health and nutrition.

- Co-investgator

December 2007 – March 2008

Review of urban poverty for the Coalition for Urban Poor (CUP) in order to update PRSP. Tasks include review of literature, conducting consultation meeting, training, materials development, report writing and others.

- Co-investigator

October 2007-December 2007

Evaluation of the program of Ain Shalsih Kendra for the empowerment of child domestic workers in Dhaka city. Tasks include document review, data collection instruments development, field investigators training, fieldwork, data analysis, report writing.

- . Principal investigator

2006-2007

Assessment of micro nutrient level of under five children in Dhaka city in 2007. Sponsored by Ministry of Science & Technology and Information, GOB.

- Co-researcher

February 2007-March 2007

Mid term evaluation of the programs of CPD – NGO to combat child labor working in Dhaka city. Tasks included documents review, questionnaire preparation, checklist preparation, conducting FGD, data analysis and report writing.

- Co-researcher & Gender Specialist

December 2006 – February 2007

Impact & baseline study in connection with Flood Protection Project in Sunamganj district jointly implemented by CNRS-CARE and supported by Swiss Development Cooperation. Responsibilities included document review, data collection instruments development, field work, data analysis and report writing.

- Health Specialist

November 2006

Assisted in the development of a health and hygiene manual for the workers of different sectors in Bangladesh for Bangladesh Institute of Labor Studies.

- Gender specialist

September 2006 – August 2007

Action research on community based disaster management intervention in the Tahirpur Upazilla of Sunamganj district. The project will examine the possibility of the community initiative on assisting the socially disadvantaged and excluded during the time of natural calamities, help in protecting livelihood opportunities and others. Commissioned by UNOPS and executed through CNRS-HSEG.

- . Food & nutrition specialist

September, 2006

A study commissioned by World Fish Center. Analysis of the effect of the CBFM-2 project related to the development of the institutions for the fishers and fish resources in different districts of Bangladesh. The focus of the analysis is food-nutrition intake and poverty scenario. Executed through CNRS.

- . Co-team leader

July – August, 2006

Mid-term evaluation of SUF, an organization dedicated to improve the condition of child labor. Tasks include, developing research design, conduct fieldwork and report writing.

- Health & nutrition specialist

June - 2006

Providing health and nutrition awareness to the workers and management of British American Tobacco in Kushtia and Jhenidah. Explaining the concept of right kind of health status and balanced diet. Identified the present imperfection and recommended alternatives.

- . Research Coordinator

April – June, 2006

Examining the relationship between micro-credit, rights based approach and child labor in the programs of CPD, UDDIPAN, SUF, SEEP and Nari Maitree. Coverage is both urban and rural areas. Tasks include questionnaire & checklist development, training, field work coordination, data processing plan, report writing.

- Health & Gender Specialist

February – March, 2006

Conducted evaluation of a development program in Jamuna Char with the focus on Rights Based Approach. Supported by ICCO and commissioned for JCDP. Tasks included field visit, questionnaire preparation, interviews, output format preparation and report writing.

- . Health & Gender Specialist

April – May, 2006

Reviewing health and nutrition condition of the workers of selected sectors in Dhaka, Mymensingh, Tangail, Rangpur and other places. Also reviewed the health services from different institutions, besides the health policies for the workers and the issue of health in

the labor laws. Tasks included checklist preparation, conducting FGD and PI, field visit and report writing.

- . Consultant

November – December, 2005

Prepared documents on industrial health, food and nutrition. Conducted workshop health and nutrition for the management and staff of British American Tobacco.

- Consultant

August- September, 2005

Evaluated a rehabilitation program of BRAC for the flood victims of 2004 in 38 districts supported by NOVIB. Rehab programs. Covered three sectors, namely, health, education and livelihood. Tasks involved developing a methodology for the evaluation study, data collection tools development, field work and report writing.

- . Consultant

May-June, 2005

Conducted a study on RMP phasing out in rural Bangladesh. The objective of the study is to evaluate four pilot projects of CARE and identify the good lessons out of it. The projects are namely, Health Nutrition Pilot Project, Self Help Organization for Women, Rural Sales Program, Violence Protection and Rights Reinforcement Cell. In this connection examined the capacity of UP, Upazilla and the destitute women to operate RMP following CARE's withdrawal. The study came up with a design of pilot project for implementation in Gazipur.

- . Consultant

February - April , 2005

Preparing a report on Poverty and Nutrition in the selected places of Bangladesh for WorldFish. Conducted field study for qualitative data and interpret food intake, expenditure and demographic data. Executed through CNRS, Dhaka.

- Consultant

March, 2005

Provided technical assistance to Oneworld in a study on Unwanted and Mistimed Pregnancies and Birth in Bangladesh. Specific input was given in the processing of the case studies of Sylhet and Brahmanbaria.

- Principal Investigator

April 2003 - Feb. 2004

Examining the socio-economic background of the retailers and the consumers in different urban locations. Qualitative data collection on food behaviour.

Funded by the International Consumers Association, Malaysia through CAB.

- Nutrition Focal Point

April 1998 - Dec. 2003

Worked as an expert in the exploratory project called 'Contamination of Arsenic Through Water, Soil, Food and its Impact on Health'. Explored the dietary habit of the community, identifying the magnitude of arsenic contamination in the health of the victims. Used qualitative data on the effect of arsenic in health behaviour. The project was funded by the AusAid, UNICEF and GoB.

- Consultant

May, 2002

Conducted study on effect on the street children of organizational support to improve nutritional status and social condition, how to integrate with family and other issues. The study is supported by INFS.

- Consultant

November, 2002

Providing training on anthropometry, children's birth weight, intra familial food distribution, difference between son and daughter in the family and gender relationship. Commissioned by BRAC.

- . Consultant

September 1999 - March 2000

Functioned as a consultant in a study on Iodine Deficiency Disorder (IDD) and the prevalence of arsenicosis. The responsibilities included planning of a national study, carrying out supervision, providing technical training to the field investigators. Additional activities included making contribution to the preparation of the report and data analysis. Research included qualitative data generation, on the perception of iodine in the rural and urban community. The study was commissioned by UNICEF and GoB.

- Consultant

April, 1999

Testing PRA techniques to explore how food conservation is carried out in the rural areas. Commissioned by FAO.

- . Coordinator

July 1989 - June - 1990

Co-ordinating the training to the indigenous community on Primary Health Care and Nutrition. Also provided the basic information on the above issues. Training covered FGD techniques, PRA and other Commissioned by UNICEF.

Awards and Scholarship

1. The Netherlands Government Fellowship, 1991
2. SAARC Fellowship, 1996
3. Philippines Government Fellowship for Food Nutrition Planning (FNP), 1998

SOME PUBLICATIONS MENTIONED

- 1) A comparative study to observe the effect of Vitamin A, Vitamin B₂, Vitamin C and iron supplementation on hemoglobin levels among dewormed and undewormed groups of school children. *Bangladesh J. Nutr.* 5; 1992, 22-26.
- 2) Thiamine, riboflavin and niacin content of solid state fermented *Lathyrus sativus* seed. *Bangladesh J. Nutr.* 6; 1992, 47-52.
- 3) Effect of nutrition education program in changing knowledge of proper intra-familial dietary distribution of food among different age groups of women. *Bangladesh J. Nutr.* 1&2; 1992-93, 27-31.
- 4) Malnutrition assessment. It's ecological factors and social measure. *Pusti; Patrika* (Bangla), 2(1&2); 1992, 32-38.
- 5) Diabetes and control of diabetes. *Pusti Patrika* (Bangla), 2(1&2); 1992, 39-44.
- 6) Obesity and obesity related diseases. *Pusti; Patrika* (Bangla) 2(1&2); 1992, 52-56.
- 7) Cholesterol and diseases of the vascular system. *Ilst; Patrika* (Bangla), 2(1&2); 1992, 57-63.
- 8) Plasma level of antioxidant nutrients (retinol and alpha-tocopherol) in cases with different grades of cervical carcinoma. *BMRC Bulletin.* 19; 1993, 79-85.
- 9) Tannic acid content of solid state fermented *Lathyrus sativus* seeds by *Rhizopus oligosporus*, *Bangladesh J. Nutr.* 7; 1994, 22-23.
- 10) Availability of nutrients for adolescent girls. *Bangladesh J. Nutr.* 7; 1994, 13-17.
- 11) Measurement of body fat of Bangladeshi adults by bioelectric impedance analyzer. *Bangladesh J. Nutr.* 7; 1994, 73-78.
- 12) Phytic acid content of solid state fermented *Lathyrus sativus* seeds by *Rhizopus oligosporus*, *Bangladesh J. Nutr.* 8; 1995, 51-54.
- 13) The effect of solid state fermentation on the niacin content of *Cajanus cajan* (L) by *Rhizopus oligosporus*. *Bangladesh J. Nutr.* 8; 1995; 59-69.
- 14) Comparison of niacin content of solid state fermented *Vicia faba* (L) by *Rhizopus oligosporus*, *Bangladesh J. Physiol, Pharmacol.* 12(1); 1996, 17-18.
- 15) Nutritional status of rickshaw pullers. *Public Health Assoc. Bangladesh, J.* 5; 1994, 3-9.
- 16) Health seeking behavior and growth of adolescent girls. *Bangladesh J. Nutr.* 9; No 1&2, 1996, 59-69.
- 17) Normal blood pressure of Bangladeshi adults. *Bangladesh Heart J.* 12; 1997, 3-7.
- 18) Distribution of *Aeromonas hydrophilia* in salad vegetables and treatment of salad vegetables. *Bangladesh J. Nutr.* 10; 1997, 19-26.
- 19) Effect of arsenicosis on neurotransmitters-mediating enzyme - dopamine β -hydroxylase in the serum of arsenic contaminated patients of Bangladesh. Presented at the international conference on Arsenic Pollution of Groundwater in Bangladesh: Causes, Effects, and Remedies, Dhaka, February 1998.

- 20) *Arsenicosis in Bangladesh*. Dhaka Community Hospital Trust, Dhaka, 1998, pp. 1-46.
- 21) Assessing risk of arsenic poisoning to residents of the Bengal region of the Indian Subcontinent consumption through the consumption of arsenic contaminated food. Paper presented at the International Conference on Current Environmental Issues, held in Sheffield, England, September 4-8, 2000.
- 22) Effect of goitrogen on brain growth and development in the rat. *Bangladesh J. Neurosci.* 16; 2000, 26-33.
- 23) Oxidative intoxication as a possible causal factor of Writer's Cramp disease. *Bangladesh J. Neurosci.* 16; 2000, 34-39.
- 24) (*Lathyrus sativus*), Mashur (*Lens culinaris*) and Chhola (*Cicer orietinum*). *Bangladesh J. Nutr* 13; 2000, 59-63.
- 25) Nutritional and biochemical aspects of motor neurone disease: Trace elements, heavy metals and electrolytes. *Bangladesh J. Neurosci* 17; 2001, 10-14.
- 26) Vitamin E is more potent in reducing hypertension when given alone than when given in combination with Vitamins A and E. *South Asian J. Nutr.* 3(1): 2001, 7-14.
- 27) Prevalence of arsenicosis in Bangladesh and its adverse impact on human health and nutrition. *South Asian J. Nutr.* 3(1); 2001, 15-18.
- 28) Impact of the 1998 flood on surface and drinking water of Dhaka City in Bangladesh. *J Asiat. .\oc. Bangladesh.* 27; 2001, 1-7.
- 29) Effect of antioxidant vitamins on mild hypertension. *Bangladesh J Med. Sci.* 7: 2001,97-101.
- 30) Hyperplastic growth of the brain. *Bangladesh J Med. Sci.* 7; 2001,123-128.
- 31) Typhoid fever among malnourished children and response to therapy: A case study. *Medicine Digest.* 2; 2001, 16-17.
- 32) The possible contamination from arsenic through food chain. KTH Special publication. Triata- Aini Report 3084 pp. 91-96, 2001.
- 33) Nutritional and biochemical aspects of motor neurone disease: Excitatory and inhibitory neuroactive amino acids. *Bangladesh J. Neurosci.* 17(1); 2001, 15-21.
- 34) Mechanism of ODAP toxicity in one-day-old chicks. *Dhaka Univ. J. Biol Sci.* 11(1); 2002, 1-17
- 35) Brain Development. *Encyclopedia of the Human Brain.* 1; 2002, 493-507. Elsevier Science USA.
- 36) Incidence of scabies and scabies-related acute glomennlonephritis in malnourished children. *Orion Med. J* 11; 2002, 17-18.
- 37) Impact of the 1998 flood or air quality of Dhaka City in Bangladesh. *J. B. Asiat. Soc. Bangladesh* 28; 2002, 43-51.
- 38) Incidence of urinary tract infection in malnourished children of rural areas of Bangladesh. *Bangladesh J. Med. Sci.* 8(2); 2002, 107-110.
- 39) Street Food Vendors in Dhaka City: Reflection on Selected Profile, Social Science Review, December, 2004.
- 40) Food and Nutrition Intake in Rural Bangladesh: Some Evidences of Improvement, Social Science Review, December, 2005.
- 41) Study on assessing morbidity pattern and health seeking behavior among day labor of urban slum at Dhaka city in Bangladesh. International Medical College Journal. 2013 Jan-June; volume-3, number-1.
- 42) Nutritional Status of Infant: on the basis of Socioeconomic Variation. Dhaka Community Medical College J, Volume 02, Number 02, July 2013, pp 66-69.
- 43) Nutritional status and hygiene practice among ethnic communities in selected area of Bangladesh. *J. Nutr.* Vol.26, December 2013-14.

- 44) Socioeconomic condition and nutritional status of selected child laborers (canteen boy) in Dhaka city. IBM CJ. 2014;4:27-32.
- 45) Infant Feeding Practices among the Mothers of Selected Different Socio-economic Groups in Dhaka City. AKMMC J 2014; 5(2): 5-9
- 46) Health and Nutritional Profile of Working and Non-Working Slum Children. ChattagramMaa-O-Shishu Hospital Medical College Journal 2014; 13(3):15-20.
- 47) Nutritional Status of Reproductive Aged Tribal Women in Bandarban District in Bangladesh. South Asian Journal of Population and Health 2014; 7(1&2): 1-7.
- 48) Nutritional Status and Dietary Intake Pattern of Male Drug addicts Undergoing Rehabilitation. J Nutritional Health & Food Eng1(1): 00006,2014
